No. Of Positions Multiple

Location India – Noida

Summary of position

Provide application and technical support for clients of Fiserv's client/server and multi-tier based products. Responsibilities include detailed and technical problem analysis, setting up complex technical environments to reproduce client problems, liaise with the core product development team, and the ability to work well with other associates in order to resolve all questions and/or problems related to our applications. Communicate with clients on a regular basis and provide the clients with status updates on current support cases, and organize and take part in regular support review meetings with clients.

#### **Primary tasks and responsibilities**

(most have)

- \* Ideally any campus project experience in the following areas:
- \* J2EE Web servers (WebSphere, WebLogic, JBoss, and Tomcat)
- \* MS SQL Server/DBA and/or Oracle Enterprise/DBA
- \* Windows Operating Systems (server and workstation)
- \* UNIX (Solaris, Red Hat, and AIX)
- \* LDAP, Active Directory, single sign on (SiteMinder, TAM)
- \* ANSI SQL, Transact-SQL and PL/SQL

#### **Education & Experience**

- \* All associates fluent in written and spoken English
- \* 4/3 years college degree: Computers, IT
- \* Microsoft Certified Systems Engineer; Microsoft Certified Developer; or Oracle Certified Professional is a plus.

#### **Other desired skills and/or competencies**

- \* Good Communication
- \* Proactive | Self-Motivated.
- \* Can work independently

#### **Key Points for Production Support:-**

- When you work on a project, your mandate is rather restricted and the learning is rather limited to the requirement, but in support there are no restrictions to learning
- Current requirement is more Technology/Configurational support than Functional Support on the product
- Working opportunity on various technologies like database (SQL, Oracle and Sybase), Middleware(Jboss, WebSphere, WebLogic), OS (UNIX, AIX, Windows)
- Opportunity to learn the product entirety and financial domain
- Direct client interactions which help associate to learn and understand the various business models and multi-tier technology implementation or architecture
- Product Support is a revenue earning model for IT industry and have bright future
- Year by Year the production support demand is growing very fast in comparison to any other stream
- Salary for the technical + functional production support is higher in market

#### **Eligibility Criteria:-**

- Year Of Passing – 2016/2017 Only.
- For B.E. / B.Tech: - Min.65% Marks at X Std. & XII Std. along with Minimum 60% in Graduation (Current Degree).

- For MCA: - Min.65% Marks at X Std., XII Standard along with Minimum 60% in Graduation Degree & Post-Graduation (Current Degree).
- B.E. / B.Tech Eligible Streams: - (Computer Science (CSE), Electronics & Communication (ECE) & Information Technology (IT))
- Maximum of 2 years Education Gap allowed anytime between two courses.
- No live backlog.

**Process: -**

- 8:15 AM till 9:15 AM - Registration as per the Call letter (e-mail Invite)
- 9:30 AM till 10:30 AM - Pre-placement Talk
- 10:45 AM Onwards - Online Test – Aptitude & Technical Test (C, C++ & Data Structures)
- 1 PM till 2PM – Lunch Break
- 2 PM Onwards – Group Discussion for Online Test Selected Candidates
- 3 PM Onwards – Technical & Managerial Interview Rounds for GD selected Candidates.
- 5:30 PM – 6PM – Final Result Declaration.

Salary Offered: - INR 3,02,460/- + Shift Allowance + Both Sides Cab Facility (Home to Office & Back Up to 25 Kms. Radius from Fiserv Office, Noida)

All eligible 2016 /2017 pass out candidates who are still looking for a job kindly fill this below registration form by 17th July 2017 before 02:00 PM. So that we can send students list to fiserv for further invitation mail.
